LinkedIn: www.linkedin.com/in/miriamsilva1/ | GitHub: <https://github.com/silvam22> |

As a recent graduate of the Full-Stack Coding Bootcamp at the University of Washington, I am proficient in a range of web development technologies, including HTML, CSS, JavaScript, React, Node, and various web development frameworks such as jQuery, Bootstrap, and MySQL. With strong analytical skills and attention to detail, I have the ability to build web applications from scratch and ensure their smooth operation. As a full-stack developer, I am well-equipped to excel in any programming-related job.

Technical Skills

Frontend: *HTML5, CSS, JQuery, Javascript, Bootstrap*

Backend: *MySQL, MongoDB, Express, ReactJS, Node, Handlebars, Webpack*

Projects

SQL Employee Tracker | <https://github.com/silvam22/Miriam-SQL-Challenge> |

https://drive.google.com/file/d/154FzJMI8_I4L6G1zddZwlwO4CyD9LuRI/view

- This project enables non-developers to access and view employee information stored in an SQL database using user-friendly content management systems.
- I built a command-line application from scratch to manage a company's employee database, using Node.js, Inquirer, and MySQL
- Tools/Languages: Javascript, MySQL, Node.js

Just Another Text Editor | <https://github.com/silvam22/texteditor-pwa> |

<https://immense-bayou-98168.herokuapp.com/>

- Just Another Text Editor is a Progressive Web Application that can be used on your browser or installed and used locally
- This project involves creating a browser-based text editor that meets the criteria for a Progressive Web App (PWA), including offline functionality and data persistence using IndexedDB. The implementation will utilize the idb package, a popular wrapper for the IndexedDB API used by major companies like Google and Mozilla.
- Tools/Languages: PWA, IndexedDB, HTML, CSS, Javascript, Webpack, Babel, Git

Savr | <https://github.com/silvam22/Savr> | <https://savr-app.herokuapp.com/>

Team Lead

- The app allows users to post deals that they come across or find their desired product on sale at a specific store in Seattle.
- This project aims to create a MERN-stack (MongoDB, Express.js, React, Node.js) single-page application that addresses a real-world challenge by utilizing real-world data and focusing on user demand. For this project I was in charge of the Front End.
- Tools/Languages: React, GraphQL, Express.js, MongoDB,

Work Experience

Amazon

06/2021-09-2021 Rialto, CA

Area Manager Intern

- Developed performance goals and targets, achieving customer demand and ensuring accuracy and quality standards were met on a consistent basis, leading to a 30% increase in sales revenue.

- Strategically managed and supported recognition programs, increasing employee engagement and reducing absenteeism rates by 10%.
- Proactively communicated policies and acted as a reliable source of information for the team, leading to an informed workforce and a 20% increase in efficiency across all operations.

Education

Central Washington University, BS Business Administration, Ellensburg, WA, 07/2022

Certificate of Completion, Full-stack Coding Bootcamp, University of Washington, 05/2023
